BUILDING TYPE	EXAMPLES	BUILDING TYPE	EXAMPLES
Electrical Buildings/E-Houses	<ul style="list-style-type: none"> • Substations • Motor Control Centres (MCC) • Variable Frequency Drive Buildings (VFD) • Electrical Heat Trace Buildings (EHT) • I/O Control Buildings 	Non-Process Buildings	<ul style="list-style-type: none"> • Control Rooms • Office Buildings • Laboratories • Clean Rooms • Central Computer/Server Rooms • Safe Rooms/Buildings (Areas of refuge) • Blast Proof Buildings • Water Treatment Buildings • Warehouse/Storage Buildings • Maintenance and Repair Shops • Vehicle/Storage Garages • Wash Bays • Lift Stations • Medical Clinics • Fire Halls
Process Buildings	<ul style="list-style-type: none"> • Process/Manufacturing Buildings • Pump Houses • Compressor Buildings • Cogeneration Buildings • Boiler Buildings • Analyzer Buildings • Operator Shelters • Buildings in Hazardous Locations 		
Industrial Camps	<ul style="list-style-type: none"> • Residential Quarters • Washroom/Bathing Facilities • Commercial Kitchens & Cafeterias • Recreational Facilities (Swimming Pools, Gyms, Ice Arenas) 		

ABOUT US

Western HVAC Solutions was born out of a desire to provide efficient, customer-driven HVAC System design, manufacturing and service solutions through a single company. Western HVAC leverages the industry expertise from three trusted, long-standing Alberta HVAC Systems and Manufacturing companies: Air Chek, Westvent and Westech Air. With a combined experience of over 100 years, together we are able to provide our customers with comprehensive HVAC Solutions for any Industrial, Commercial and Institutional project.

Benefits to working with Western HVAC Solutions:

- **Direct supplier relationships mean cost-effective solutions delivered on-time and on-budget**
- **Provide HVAC Systems based on our experience and your application**
- **Custom manufacturer with ability to meet the needs of the site**
- **Produce accurate equipment selections and drawings to meet all customer specifications**
- **Deliver accurate documentation to reduce re-work and complete projects**
- **Accurate quotations, RFPs and RFQs that reduce unnecessary change orders**
- **Meet schedule-driven requirements by employing the best in project management solutions**
- **Single point of contact for all your HVAC needs**
